

Nihan Telli

Front End Developer

I graduated from Yıldız Technical University, Department of Architecture. I decided to change my career. In line with my interest in software and the visual design skills that I gained from architecture, I completely believe that I will be successful in the field of Frontend Development. I develop various web projects with the HTML, CSS, SCSS, Javascript trainings I have received. I enjoy writing code and designing web projects. Also I am a highly motivated person to learn new technologies, libraries and frameworks.
