

# Nihan Telli

## Front End Developer

I graduated from Yıldız Technical University, Department of Architecture. I decided to change my career. In line with my interest in software and the visual design skills that I gained from architecture, I completely believe that I will be successful in the field of Frontend Development. I develop various web projects using HTML, CSS, Bootstrap, Javascript, React JS and Git. I enjoy writing code and developing web projects. Also I'm a highly motivated person to learn new technologies, libraries and frameworks.
